FULL STACK DEVELOPER

A motivated Full Stack Web Developer with hands-on experience in building dynamic and responsive web applications using JavaScript, HTML, CSS, SASS, Bootstrap, TypeScript, Angular, SQL, and ASP.NET Core MVC. Holding a degree in Network Engineering and Security from Jordan University of Science and Technology and currently advancing my skills at Orange Coding Academy. Proficient in C#, SASS, and SQL, with a strong focus on problem-solving, clean code practices, code debugging abilities, and continuous learning. Actively seeking a challenging opportunity to contribute my skills, grow professionally, and make a meaningful impact in the field of web development.

TECHNICAL SKILLS

Front-End Technologies	:	JavaScript, TypeScript, HTML, CSS, SASS, Bootstrap, Angular
Back-End Technologies	:	Java, C, C#, ASP.NET Core MVC, ASP.NET Web Forms, Core API
Database	:	SQL, SQL Server
Software Development Practices	:	Scrum, Agile
Operating Systems	:	Windows, Linux
Tools	:	Git, GitHub, Visual Studio, VS Code, Figma, Jira, Trello

EXPERIENCE

Full Stack Web Development Trainee — Dec 2025 – Present
Orange Coding Academy — *Irbid - Jordan*

- Completed intensive training in Full Stack Web Development at Orange Coding Academy, focusing on **ASP.NET Core MVC, JavaScript, HTML, CSS, TypeScript, C#, Angular, Core API, and SQL.**
- Worked on 10 diverse projects, including 5 individual and 5 group projects, applying learned skills to build practical solutions and enhance real-world development experience.
- Strengthened problem-solving and debugging skills through hands-on experience in real-world projects, ensuring code efficiency and reliability.
- Gained leadership experience as a Scrum Master, managing team collaboration, sprint planning, and ensuring timely project delivery.

Customer Service Representatives — Oct 2023 – Aug 2024
Extensya — *Irbid - Jordan*

- Provided exceptional customer support to both English and Arabic-speaking clients, ensuring clear and effective communication to address diverse customer needs and inquiries.
- Managed high volumes of customer interactions across various channels while maintaining professionalism, meeting response time targets, and ensuring consistent service quality.

Front-End Web Development Intern — Oct 2022 – Dec 2022
Vardot — *Amman - Jordan*

- Developed and maintained responsive web pages using HTML, CSS, Bootstrap, and JavaScript, ensuring cross-browser compatibility and optimized user experiences.
- Worked in an agile team environment, contributing to UI design and coding tasks, while enhancing skills in problem-solving, debugging, and implementing user-centered design principles.

EDUCATION

Jordan University of Science and Technology — Irbid, Jordan
Bachelor of Network Engineering and Technology — *June 2016 - Dec 2021*

PROJECTS

HR Management System   Source Code

Developed an HR management system, utilizing HTML, CSS, Bootstrap, JavaScript, C, SQL, and ASP.NET Core MVC. The system includes employee, manager, and HR dashboards with features such as attendance tracking, task management, leave/vacation requests, yearly evaluations, department management, PDF generation, and password hashing, with a focus on user-friendly interfaces and efficient backend functionality.

Library Management System   Source Code

- Developed a Library Management System using HTML, CSS, JavaScript, and ASP.NET C Web Forms, tailored for handling both book and hall reservations.
- Implemented user and admin login systems, allowing users to book resources and administrators to manage books, halls, and monitor reservation history.
- Designed a lightweight data management approach by storing and retrieving all records from '.txt' files, avoiding the use of Local/Session Storage.

E-commerce Platform   Source Code

- Developed a full-featured e-commerce web application for selling cosmetics using Angular, TypeScript, HTML, CSS, and Bootstrap, with a focus on modern design and user experience.
- Implemented user authentication, product categorization, shopping cart functionality, voucher application, and secure order processing.
- Built a personalized user profile system with support for saved preferences, addresses, payment methods, and order history.
- Integrated product reviews and ratings to improve customer engagement and trust, while ensuring the platform remains responsive and scalable.

Recruitment Quiz Platform   Source Code

- Developed a recruitment quiz platform to evaluate candidates' skills through categorized quizzes including IQ, English, and Technical assessments.
- Implemented core features such as user registration, login, profile management, quiz selection, real-time result display, and answer review functionality.
- Built using HTML, CSS, Bootstrap, and JavaScript, with data management handled through JSON files for lightweight storage.
- Enhanced user experience with additional features like password reset, downloadable results, and toggleable dark/light themes, all within a responsive design.

SOFT SKILLS

- Code Structuring
- Problem-Solving Ability
- Adaptability
- Time Management
- Effective Communication
- Team Collaboration
- Attention to Detail
- Continuous Learning & Research Skills
